

RECENT CODE CHANGES

Recent changes to the Indiana accessibility code now require **ADA toilet rooms** to be even larger. Cooler Design can help with this new code change and others.

State Department of Health and Homeland Security approval processes can prove tedious. We can use our excellent relationships with these agencies to make this much easier!

ASK US ABOUT THESE NEW AND CREATIVE PRODUCTS

Florazzo (Actual Sample)

Toilet supports for wall-mounted toilets - Retrofit existing toilets with an adjustable, leg mounted under the existing bowl, to increase the weight capacity of a wall mounted toilet from 350 lbs to over 1,000 lbs. You'll increase patient safety without incurring the expense of toilet replacement.

Florazzo - Obtain the aesthetics of a terrazzo floor with a material that installs like tile but is completely monolithic. This product has superior wear and stain resistance which makes it suitable even in surgical applications.

TRENDS IN HEALTHCARE ENVIRONMENTS

In hospitals, as private patient rooms become the norm in new construction, existing hospitals are undertaking the conversion of semi-private patient rooms to private rooms. Healthcare facilities that have undergone this transformation are realizing increased patient satisfaction and lower infection rates.

Rush Memorial Hospital, Pediatrics and Gynecology

Community Hospital East, Medical Oncology Unit

DESIGN AND FUNCTION

Let us produce a Cooler Design for you

- Evacuation Plans
- Presentation Materials
- Pre-Design

Bloomington Hospital Orange County, CT Scan Room
